Guangdong Zhaoqing Red Eagle Science & Technology Co., Ltd.

Guangdong Zhaoqing Red Eagle Science & Technology Co., Ltd., is located in Zhaoqing City, Guangdong Province with area of more than 20,000 square meters. The company was invested by Qindao Canmill Stationery Co., Ltd in 2020, who was founded in 2002, focusing on brand agency, and has established a complete sales channel in China, including students, art, universities, galleries, supermarkets, etc. In 2007, Canmill began selling markers and became one of the earliest companies in China to sell markers. During the sales process, Canmill gained a profound understanding of the marker pen market and consumer demand.

Red Eagle has a professional technical team with rich experience in the marker making industry and has advanced ink color matching systems, molds, injection molding, printing, assembly and packaging production lines, also established strict quality management systems, advanced ERP, OA, barcode management and traceability information systems, and have outstanding advantages in product design, color development, ink research and development, production manufacturing, order delivery, quality control and other aspects.

Red Eagle focuses on the production of high-level art markers, and all products have applied for design patents. It has set up an independent ink research and development laboratory and developed a series of inks, including alcohol color ink, water-soluble color ink, super washable color ink, acrylic ink, etc. At present, there are 639 colors of alcohol based ink and 200 colors of water-based ink produced, and two ink invention patents have been granted.

All inks are environmentally friendly, non-toxic, comply with EU standards, and have passed tests such as EN71-3, EN71-9, ASTM4236, LHAMA, TRA, etc. Red Eagle has become the OEM orders manufacturer and service provider of the most influential art marker brand on Amazon.
